2024 THTA budget synopsis

The annual THTA budget covers operational expenses (e.g. utilities, landscape), accrual to our maintenance and painting reserve funds, and payment of the HOA loan for road improvement. The only flexibility is balancing maintenance and painting reserve funding. For the last 3 years, we have prioritized funding painting over maintenance. That priority must change in 2024.

2023

Increased costs for Water/Sewer was offset by increased interest and Comcast income, and lower expenses for Pool Operations.

2024

A \$20/month HOA increase covers projected increases primarily for Utilities and Landscape. 2023 funding for Painting reserves is moved to Maintenance reserves while total funding for the two accounts is unchanged

FYI: An HOA increase of \$10/month results in additional income of \$8,640.

2025 and beyond

Funding the Painting reserve account must increase to prepare for the next painting cycle 2030 - 2035. This is in addition to any cost increases due to inflation.

The one variable that can impact the budget going forward is the unknown of any significant maintenance costs the HOA could incur. The projected site maintenance reserve at the beginning of 2024 is \$31,500. This is the lowest the reserve has been for a number of years. Accruals to the reserve during 2024 will add an additional \$30,000 less 2024 maintenance expenses.
